

Become a Green Schools Student Ambassador

Dear Students, Teachers, Advisors, and Parents,

Green Schools is a 501(c) 3 Non-profit Organization whose mission is to create greener and healthier learning environments through education and awareness. We offer a number of environmental education programs and resources for schools and communities.

The Green Schools Student Ambassador Program develops leaders with a passion for improving school communities while preserving our environment. Topics addresses in this program include: Environmental Health, Sustainability, Conservation, Renewable Energy, Waste Management, Green Jobs, and more. Students will actively work to improve their school and/or greater community by way of a customized service project. Students will also be asked to share timely information with your school/organization with regards to grants, awards, and special opportunities made available only through this program.

We look forward to working with you and your students, and hope to be of service to your school and community!

Sincerely,

Robin Organ-Executive Director & Founder of Green Schools
